Pre Wedding Shoot

A popular option is the opportunity for you both to meet your photographer in person and have some relaxed pictures taken in the comfort of your own home or another location of your choice. This helps you feel more relaxed with the photography on the actual wedding day and build up a rapport with the photographer.

Any pictures taken during this session can be added to your allocation of chosen pictures within your wedding package if you wish. However, if you require single prints of any photographs taken separately from your wedding picture allocation then these are available at the standard rates shown above.

I only request a sitting fee of £50 for this service.

A non-refundable, non-transferable booking deposit of £175 is payable to confirm your wedding booking.
